50. Site Selection for 2019 RI Convention

Statement: In decision 104, October 2012, the Board rescinded its September 2011 decision that looked with favor on Durban South Africa as the site for the 2019 RI Convention. The Board noted that the venue plan and hotel block did not meet the critical criteria for hosting an RI Convention. In decision 165, January 2013, the Board, after reviewing a request from the Durban Host Organization Committee, did not agree to establish a “limited attendance” model for a smaller international convention that would allow for convention sites in smaller cities. The Board also received a petition from the Rotary Club of Eshowe, South Africa, requesting the Board to reconsider its decision to not hold a RI’s 2019 convention in South Africa, which it considered in detail at this meeting.

DECISION: The Board reaffirms its decision 104, October 2012, in which the Board did not look with favor on holding the 2019 RI Convention in Durban, South Africa.

Note: Directors Åsebol, Lunsford, Styles, Peiper, Webb, and Yun requested that their negative votes be recorded.

51. Criteria for Convention Site Selection

Statement: Board policy for selecting RI convention sites requires the Board to review a list of viable cities worldwide that have not hosted an RI convention within the previous 20 years. In reviewing a list of cities at this meeting, the Board discussed how the critical criteria for a city to host an RI convention might be revised.

DECISION: The Board

1. requests the president to appoint a three-member committee, plus a liaison director, to review the strategic purpose and critical criteria for the selection of convention sites, for report to the Board at its January 2014 meeting, and authorizes a 2013–14 budget variance of US$20,000 for one meeting of this committee;

2. defers consideration of soliciting proposals for the 2019, 2021, and 2022 conventions to its January 2014 meeting.

52. Guidelines for Sponsorship of RI Meetings, Events, Projects and Programs

Statement: The general secretary recommended several amendments to RI policy regarding guidelines for sponsorships at RI meetings.

DECISION: The Board, to better facilitate first aid/medical and Internet sponsorships, for RI meetings, events, projects, and programs amends Rotary Code of Policies section 36.010. by adding new points 14 and 15 as follows:

36.010. Guidelines for Sponsorship of RI Meetings, Events, Projects and Programs

The Board, acknowledging that RI meetings, events, projects and programs are supported in part through sponsorships by business entities and governmental agencies, has adopted the following terms for acceptance of sponsorship of RI meetings, events, projects and programs:

14. First Aid/Medical sponsorships: The specifics and details involved with a medical/first aid sponsor must be approved by the general secretary, in consultation with the president, at least three months before the meeting, event, project, or program to ensure that the sponsoring organization can comply with RI’s contractual requirements.
including but not limited to insurance and indemnification requirements. First aid/medical sponsors sent to the general secretary later than three months before the meeting, event, project, or program will not be considered.

15. Internet sponsorships: The specifics and details involved with an internet sponsor must be approved by the general secretary, in consultation with the president, at least three months before the meeting, event, project, or program to ensure that the sponsoring organization can provide the internet services RI requires at its events and also comply with RI’s contractual requirements, including but not limited to insurance and indemnification requirements. Internet sponsors sent to the general secretary later than three months before the meeting, event, project or program will not be considered.

(Subsequent paragraphs to be renumbered accordingly)

53. Reserved Seating at RI Conventions

Statement: To better honor and cultivate major donors to The Rotary Foundation, the general secretary recommended that Level 4 Major Donors be given reserved seating at international convention plenary sessions.

DECISION: The Board agrees to add Level 4 Major Donors to the reserved seating section at international convention plenary sessions and requests the general secretary to amend Rotary Code of Policies section 57.120.9., and the Manual for Conventions accordingly.

54. Membership Trends

Statement: The general secretary provides the Board an annual report on RI membership trends. As of 30 June 2013, membership was 1,208,660 Rotarians and 34,644 clubs. The general secretary reported on a membership referral program, membership retention matters, new club viability, trends in club size, and the regional membership plans.

DECISION: The Board receives the general secretary’s report on membership trends.

55. Current Membership Trends

Statement: To address decreasing membership trends, the Membership Development and Retention Committee agreed that RI needs to renew its commitment to membership development efforts.

DECISION: The Board

1. notes with concern that the 30 June 2013 membership numbers are the lowest they have been in 12 years;
2. agrees that membership is Rotary International’s highest priority, second only to polio eradication;
3. requests the general secretary to develop an organizational impact strategy to align resources in support of membership development (to include Council on Legislation policies, staffing model, systems support, etc.), for report to the Board at its May 2014 meeting;
4. requests the Constitution & Bylaws Committee to draft legislation for the 2016 Council establishing a standing committee for membership, to include two directors, that would be responsible for a longer-term scope and perspective on membership strategies, plans, training, implementation, and resources, the composition of which must reflect the internationality of Rotary.

56. Regional Membership Plans

Statement: The Membership Development and Retention Committee reviewed the progress of the regional membership plans to date, noting the successes achieved and challenges presented by the plans. The committee agreed that a continued commitment to the regional membership plans was necessary to gauge their long-term effect.

DECISION: The Board reaffirms a regional approach to membership.
57. Strategic Suggestions

Statement: The Membership Development and Retention Committee discussed how changes to its terms of reference could help it better support the Board in making membership a top priority for RI. The committee further discussed how it and the Board can better support membership development and better support clubs to attract and retain members. The committee also reviewed the existing tools and resources available to support membership development and retention.

DECISION: The Board

1. establishes new terms of reference for the Membership Development and Retention Committee as follows:

   The Membership Development and Retention Committee provides leadership, guidance, and strategic responsibility for membership development, retention and education. It shall be accountable to the Rotary International president and Board of Directors. Together with senior Rotary staff, the committee is responsible for the development of a Membership Strategic Plan, and the reporting of such to the president and Board. It shall consider matters related to developing programs to attract new members, educate and retain existing members, and encourage the creation of new Rotary clubs in current Rotary countries in support of the RI directors’ regional membership plans.

2. defers consideration of an additional meeting of the Membership Development and Retention Committee in 2013–14, pending receipt of a proposed agenda at its January 2014 meeting;

3. adds “membership development” to the suggested International Assembly program content list, beginning at the 2015 International Assembly and requests the general secretary to amend Rotary Code of Policies section 58.050.1. accordingly;

4. requests the general secretary to
   a. develop online training directed at specific leadership levels and regions on membership development strategies and tactics;
   b. encourage clubs to take advantage of existing tools such as the Strategic Planning Guide, Club Assessment Tools, and Be a Vibrant Club piece;
   c. continue to promote Rotary Club Central to ensure that updated membership goals and achievements are included;
   d. develop an objective measurements tool for evaluating club effectiveness, such as the club health check;

5. requests clubs and districts to support membership development training consistency by using RI-published curricula, with reasonable deference to the regional membership plans.

58. Membership Pilot Programs

Statement: The Membership Development and Retention Committee reviewed status reports from the membership pilot programs (associate membership, corporate membership, innovation and flexible clubs, and satellite club membership) and agreed that the pilot clubs, which are scheduled to conclude on 30 May 2014, need more time before the true effect of the pilot initiatives can be measured.

DECISION: The Board extends the associate membership, corporate membership, innovation and flexible clubs, and satellite club membership pilot programs for a second three-year term, to conclude on 30 June 2017.

* * * * *

59. Pilot Projects Benchmarks Report

Statement: At its November 2010 meeting, the Board established, as a three-year pilot project, four new club models (associate membership, corporate membership, innovation and flexible clubs, and satellite club membership) designed to help clubs adapt to the demands of a changing society. The Board received its first report on these pilot models at its October 2012 meeting and requested a further update at this meeting. The general secretary reported that the pilot projects’ first two years were largely spent planning and building support for the changes among club members, and that while all pilot projects had not fully completed implementation in their third year, the majority reported that the participation in the pilot has had a positive impact on their clubs.

DECISION: The Board receives the general secretary’s pilot projects benchmarks report.
60. Database and Tracking System for RI/TRF Alumni

Statement: In decision 110, October 2012, the Board requested the general secretary to investigate developing a database (from RI’s central membership database) to institute a tracking system that will allow for effective and efficient outreach to former RI program participants and Foundation alumni for report at this meeting. The general secretary reported two phases of this project are complete. The third and final phase was postponed due to other organizational priorities at the Secretariat.

DECISION: The Board

1. notes that retiring the Rotary Foundation Alumni and Youth Exchange databases and that migrating Interact members data from the People database to netForum have already been identified as Secretariat projects, and further notes that other IS priorities have prevented the start of this data migration project;

2. looks with favor on this alumni data migration project beginning as soon as possible;

3. requests the general secretary to provide an update on this project at the May 2014 Board meeting.

61. Districting Committee Report

Statement: The Districting Committee met via teleconference in September 2013 and discussed the status of districts below or near 1,100 members, of districting in Argentina and Mexico, and the status of districting decisions taken before the 2013 Council, among other topics. The committee made several recommendations to the Board.

DECISION: The Board

1. confirms its decision 167, point 8b, January 2013, merging Districts 4825 and 4890 (Argentina) into new District 4895, effective 1 July 2014;

2. confirms its decision 167, point 8c, January 2013, merging 36 clubs from District 4835 into District 4940 to create new District 4945 (Argentina), effective 1 July 2014;

3. notes that Districts 4815, 4845, 4855, 4915, and 4920 (Argentina) are currently over 1,100 members and rescinds all previous Board decisions regarding districting changes in these five districts;

4. merges Districts 4835 and 4865 (Argentina) effective 1 July 2014, unless the general secretary receives a plan to merge three districts into two that includes District 4815 by 1 March 2014, for consideration at the May 2014 Board meeting;

5. recognizing that District 4815 (Argentina) is over 1,100 members and therefore under no obligation to change boundaries, strongly recommends that the district consider a merger plan as noted in point 4 above, to take advantage of the region’s geography and to create a district size that would preclude future redistricting;

6. confirms that all other districting changes made before the 2013 Council on Legislation are still in effect and advises that any district that wishes to rescind all or part of a prior decision must make a petition to the Board via the Districting Committee;

7. noting that District 1290 has inquired about their current status, advises district leadership that if the district has over 1,100 members and a majority of the clubs in the district vote in favor of making a change to the existing districting plan, a petition could be made to the Board via the Districting Committee;

8. noting that Districts 4180, 4190, and 4200 (Mexico) are under 1,100 members, requests the leadership in these districts to submit a plan to merge the three districts into two by 1 December 2013, for consideration at the January 2014 Board meeting, and advises these districts that if no plan is submitted, they will be merged, effective 1 July 2014;

9. noting that Districts 1380 (Finland), 3870 (Philippines), 4720, 4651, 4750 (Brazil), 7000 (Puerto Rico), 7410 (USA), and 9550 (Australia) have all recently fallen below 1,100 members, encourages these districts to participate fully in their respective regional membership plans;

10. requests the general secretary to send recognition letters to districts with strong membership growth including those that have at least 1,200 members, have chartered at least three Rotary clubs in the 2012–13 Rotary year, and have at least five percent membership growth;
11. requests the general secretary, in consultation with corresponding directors, to work with all districts whose exemptions expire 1 July 2014, to submit a plan by 30 March 2014, for the Districting Committee’s review and report at the May 2014 Board meeting, including Districts 1360 (Iceland), 1911 (Hungary), 2540, 2830 (Japan), 5670, and 7510 (USA).

62. Rotary Funding for Governors

_Statement:_ Noting that the Board had not reviewed the policy related to RI reimbursement of district governor expenses since 1989, and that many business practices have changed since that time, the general secretary suggested amendments to the policy that would set governor budgets based on club visits, GETS training, the training of the governor’s district team, district conference expenses, and office expenses. Travel distances, numbers of clubs and Rotarians in the district, and necessary hotel expenses would also be a factor in establishing a governor’s budget.

_DECISION:_ The Board amends Rotary Code of Policies sections 18.020.1., 19.010., 19.050.5., and 69.030. related to funding for district governors, as shown in Appendix G.

_Statement:_ Based on findings from the Committee to Strengthen Rotary’s Brand and from the branding firm Siegel+Gale, RI recently implemented a new voice and visual identity that updated the color palette and display of the RI logo and provided guidelines for telling Rotary’s story and for describing the work of clubs and districts around the world. Noting that RI has many logos for the various programs, the general secretary recommended revisions to these logos to ensure that they align with the new visual guidelines.

AMENDMENTS TO THE ROTARY CODE OF POLICIES REGARDING FUNDING FOR DISTRICT GOVERNORS
(Decision 62)

69.030. Governors’ Expenses Rotary Funding for Governors

69.030.1. Governors’ Estimated Allocation Rotary Funding for Governors
At the beginning of each term of office the Governors are provided with an estimated allocation funding to partially offset their expenses related to club visits, training, and office expenses. These funds are used to carry out the policies of RI, and are intended to subsidize the governor’s reasonable and necessary expenses in carrying out his or her governor duties and responsibilities in accordance with Rotary and Board policies, within the district, including those mandated duties performed during the term as district governor-elect, in accordance with the constitutional documents and Board established policies.

69.030.2. Governors’ Expenses Reimbursable Expenses by RI
The budget appropriation for governors shall be based on a schedule of rates so as to provide equitable and adequate service to all clubs. To this end, the Board in adopting the budget and making appropriations allocates funds on the basis of a relationship of various activities. Governors shall be reimbursed for reasonable and necessary expenses in carrying out their responsibilities as a governor, governor-elect and governor-nominee up to the amount of their district’s total funding amount designated by RI to their year of service as a governor.

69.030.3. Schedule of Reimbursement to Governors
Reimbursements paid to governors, within their estimated allocation from RI, will be disbursed in local currency when RI holds that currency. When RI does not hold the governor’s local currency, RI will select a reasonable, cost-effective alternate currency. All disbursements are subject to random audit. Payment is either made directly to the district governor or may be paid to the district fund. Reimbursements to governors shall be administered as follows, and reviewed regularly:

a) 70% of the budget available to governors will be mailed in the first week of July (the general secretary is authorized to disburse less than 70% of the budget available to governors if he considers this necessary to maintain appropriate controls and stewardship over large total allocation amounts)
b) prior to the disbursement of additional funds, there must be received
   1. expense reports documenting the use of the initial 70%
   2. expense reports documenting the use of up to the remaining 30%
c) expense reports must be submitted no later than 31 July following the governor’s year of service, with proper documentation, in order to receive further reimbursement of up to the remaining 30% of the budget amount
d) upon receipt of a petition explaining extenuating circumstances, the general secretary, acting on behalf of the Board, may extend the deadline noted in point c) above to no later than 30 September
e) governors must fully document the use of the initial 70% allocation advance and return any unsubstantiated or unused funds to RI no later than 30 September following the governor’s year of service; governors with amounts not substantiated or repaid to RI will be added to the List of Rotarians with Outstanding Obligations to RI and reported to the RI Audit Committee.
f) reimbursement is capped at 100% of the District Budget Model amount.
g) training on this policy is to be included as a part of the district governor training at the International Assembly.

69.030.4. Reimbursable Office Expenses
The Board has established a framework for governors’ reimbursable office expenses.

69.030.5. Procedure for Revising Governors’ Budgets
For the purpose of establishing a procedure for the handling of revisions in appropriations for governors, it is agreed that:

a) in the general administration budget for each year, there shall be included in the total amount appropriated for governors a reserve to provide for all revisions in the appropriations for individual districts;
b) the general secretary is authorized to make such revisions in the appropriations for governors as may be necessary due to districting or changes in the number of clubs in any district;

c) the general secretary shall be authorized to make decisions on behalf of the Board relative to increases in governors’ budgets, when, in the opinion of the general secretary, all or part of such increase requested by the governor is justified and reasonable;

d) the general secretary shall be authorized to make decisions on behalf of the Board relative to reimbursement of governors for expenses incurred in excess of their budgets, when, in the opinion of the general secretary, all or part of such reimbursement as may be requested by a governor is justified and reasonable;

e) all actions taken by the general secretary in accordance with these procedures shall be reported to the Board.

69.030.6. Exchange Rate Fluctuations
Governor’s budgets will be recalculated to the extent the US exchange rate increases or declines against local currency by three percent or more between the rate in effect 1 July and the rate at which the budget was originally prepared to offset the increase or decline. The revised budget, reflected in US dollars, will then become final and not subject to further change due to subsequent exchange rate fluctuations.

69.030.7. Funding for Assistant Governor Training
All districts that have adopted the District Leadership Plan shall be eligible to receive an amount of up to 10% of the amount calculated by the model district allocation to train and support assistant governors. The general secretary shall disburse the additional funds approved by the Board for assistant governor training based on expense report documentation that the funds are being used to train and support assistant governors.

69.030.8. Additional Funding for Training of Club Presidents and Assistant Governors Special Factors in Rotary Funding for Governors
Districts with multiple countries, multiple languages, large geographical distances, and/or large numbers of clubs may warrant the allocation of additional financial resources from RI to be added to Rotary Funding for Governors. The RI Board may consider providing additional funding for such districts, upon their request, to support the training of incoming club presidents and assistant governors. Travel expenses of assistant governors are an eligible expense category for reimbursement to governors whose districts have been allocated special training subsidies to support their clubs.

18.020.1. District Governor – New Club Activities
The governor is responsible for organizing all new club efforts within the district and for serving as or appointing a special representative to coordinate such activities.
