AMENDMENTS TO THE ROTARY FOUNDATION CODE OF POLICIES REGARDING PARTNERSHIP GUIDELINES
(Decision 107)

4.010. **General Guidelines**
Rotary International and The Rotary Foundation develop partnerships with other organizations that will increase our capacity to provide service. There are four types of partnerships: Strategic, Funding, Service, and Project. All potential partnerships must at a minimum do one or more of the following:

a) align with the strategic plan
b) address one or more areas of focus
c) provide opportunities for positive public image
d) attract new members, contributions, or project volunteers

Given the extreme variety among potential partners, these guidelines are not exhaustive. All potential partners shall enter into an agreement with RI/TRF, and the nature of each agreement may be different.

While Rotary and/or The Rotary Foundation may, from time to time, partner with organizations whose mission states or implies a religious orientation, results of such partnerships must not promote any particular religious entity, activity, or viewpoint. Additionally, all proposed partnerships will be carefully researched by staff (including financial considerations and accountability), vetted by a Foundation Committee, voted on by a full meeting of Trustees and endorsed by the RI Board to ensure the proposed partnership is appropriate. Any partnership is open to review and possible termination if analysis determines the collaboration to no longer be appropriate.

The general secretary shall provide an annual report on all partnerships to the Board and the Trustees at their second meetings each year.
APPENDIX J

MEMORANDUM OF UNDERSTANDING WITH WORLD VISION
(Decision 108)

Between
[HOST PARTNER]
and
[INTERNATIONAL PARTNER]
and
WORLD VISION

WHEREAS, The Rotary Foundation (TRF), various Rotary clubs and/or Rotary districts, and World Vision, Inc. (WVUS) and World Vision National Offices (jointly referred to as WV), desire to collaborate on various projects in common areas of focus in various countries with additional funding from World Vision US donors as might be offered. The common areas of focus include peace and conflict prevention/ resolution; disease prevention and treatment; water and sanitation; maternal and child health; basic education and literacy; economic and community development and the host of associated projects therein.

WHEREAS, WV understands the importance of involvement by host and international Rotary clubs and/or TRF, and WV and TRF understand the value of leveraging the expertise of WV professional staff to increase project impact, sustainability, improve reporting and accounting, and benefit from WV’s local staff presence and its positive impact on government relations.

WHEREAS, any project applied for may only be successful when Rotary clubs and WV have a common desire to work in the same area and sector and have the resources and infrastructure that can support the jointly desired successful outcomes.

WHEREAS, it is understood that projects funded with Rotary grant funds may not be used to promote a particular religious viewpoint.

This document is intended to serve as a template and a guide for World Vision and Rotary clubs and districts as they collaborate together, particularly on larger projects. It is the preference of both World Vision and Rotary to work together on significant scale and scope projects which would normally have a total budget (from all sources) of $500,000 or greater contributed by grant sponsors. Understanding that project budgets generally at or exceeding $500,000 require strong internal controls and financial management for the proper use of funds, the grant sponsors and WV acknowledge the following principles for payment and financial management.

The parties agree as follows:

1. Purpose
This MOU serves to establish a framework of cooperation and agreement between the aforementioned parties as it pertains to the implementation of various projects financed in whole or in part by a Rotary Foundation Global Grant/Project Grant and World Vision US. This MOU only applies to WVUS and other WV National offices who might be involved in each project.
2. Each project grant application will provide Project Primary Contacts as follows:

3. Understandings

A. All parties affirm that Global Grant [or Project Grant] XXXXX (the Project) when initiated, will be jointly managed by the Rotary clubs and/or districts involved in the project in collaboration with local WV National Office staff. Funds will be disbursed to WVUS through the international Rotary club/district with host Rotary club/district approval. A local Project Committee shall be formed consisting of a minimum of three members of the host Rotary club/district and three members of the WV National Office staff.

B. WVUS and WV National Office in the project country affirm that they are reputable and responsible and act within all governing laws of the project country.

C. All parties acknowledge that the Project, if approved, will be awarded to the Rotary clubs/districts who together will manage funds distributed to WVUS and all Rotary funds will be expensed in strict accordance to the approved budget. Rotary will work to ensure all funds are provided in a timely manner according to the project budget plan. Any delays in funding will be communicated and reviewed in accordance with the project issue escalation process referenced in section 9 of this MOU. Funds directed to WVUS may be matched as agreed by WVUS and per the project budget.

D. Funds distributed by TRF to the international Rotary club will be disbursed through a payment plan specified and controlled by Rotary at the time of grant approval and contingent upon timely and complete interim reporting. The spending plan for projects is to be provided as part of the TRF approval process.

E. Any significant change in the MOU or the project budget which impacts Rotary funding will need the approval of TRF. Minor line item budget changes (less than 5% of overall budget) may be made by the Project Committee. The budget for Rotary funds cannot be increased unless this agreement is formally amended and signed by all parties.

F. Both WVUS and WV National Office must abide by TRF grant terms and conditions, except to the extent as amended by this agreement. (For example such amendments approved in this agreement include: sections 3.A. on flow of funds where funds will be disbursed to WVUS through the international Rotary club/district with host Rotary club/district approval; and section 5.C. on administrative and project oversight permissible costs.) Both host and international Rotary clubs/districts understand that they are ultimately responsible for the use of all grant funds.

G. WV and its involvement in this project may be subject to financial and operational review/audit by TRF at any time during or after project completion.

4. The Rotary Club/District Responsibilities.

It is expected that Rotary host club and international club participation will be a critical and important component leading to project success. Specific responsibilities will vary depending on the details of the project but normally, it is expected that Rotarians in the host or international club will be involved in activities, including but not limited to:
Participate in project management committee and related government coordination meetings, visit village and project work sites, participate in community training sessions, coordinate appropriate signage and publicity for the project, and assist with project monitoring and reporting.

Specifically, they shall:

a) Form a committee of at least three members who shall agree to be involved in all aspects of the project including: planning, site selection, overall project scope, working in collaboration with local WV staff in the project area.

b) Be involved in selection of all contractors that will carry out work with Rotary Funds. Be involved in all government meetings regarding the Project as can be reasonably expected.

Understand background checks conducted by WV are required for all Rotarian visitors and guests to WV sites in accordance with WV child protection policies, protocols and standards.

e) Participate in ongoing community training sessions as possible which may include hygiene for water projects, other training as may be required for health, education, economic development, or other related projects. Host Rotary clubs/districts are encouraged to find any additional ways to learn from the local WV staff and be involved in the project.

f) Maintain communications with WV National Office staff and address any issues that might have an effect on the success of the project.

g) Ensure proper signage, which emphasizes community involvement and ownership, at all project sites and make sure signs are affixed permanently in a prominent place near any specific project locations (such as water wells, water reservoirs, water points if applicable).

h) Create and submit to TRF all grant applications and reports.

i) Complete progress reports which will include details of all project aspects to date as well as current budget status of project funds spent.

j) Conduct and encourage site visits by its members and other Rotarians as might be involved or interested.

k) Publicize the project in the district, at the RI level and other venues as appropriate. The Rotary clubs/districts will also work with both WV National Office staff and WVUS staff to assist in publicizing the activity and success.

l) Follow through on all project goals and the details of the data collection process to evaluate success and sustainability of the project. It will monitor the results and will encourage those on site to maintain accurate records for this purpose. Detailed budget and all project aspects are to be reported at minimum 6 months intervals on the project including budget status.

B. Ensure WV National Office receives appropriate technical and financial support as might be required for the particular project and sector.

C. Conduct appropriate project review, report writing and coordinating for all Rotary partners including detailed budget updates. As much as possible, WVUS will use existing standard reporting and project management practices for our Rotary engagements. It is understood a maximum 10% percent of the Rotary Funds can be applied towards administrative costs of report writing, accounting and WVUS project oversight.
D. Provide appropriate technical and expert oversight for all Project activities as required. The WVUS technical expert shall work directly with WV National Office staff and may also work in conjunction with the host Rotary club/district or TRF staff and TRF assigned cadre members as might be involved from time to time.

F. All parties understand the amounts provided by TRF are fixed and cannot be subject to cost and currency exchange uncertainties. Any project overruns if applicable will result in either a reduction of project scope to remain in budget or WVUS agreeing to fund additional expenses. Project savings may be returned to TRF or be used to increase the impact of the project as approved by the host and international clubs/districts and TRF and may only be spent in direct application to the project and not be used for another purpose.

6. Project Funding
   Sponsor and Host Club and District DDF funding including TRF match total: $XXX,XXX

WV National Office procurement policy shall be the guide in the process. Just as WV must adhere to TRF terms and conditions, no part of the project shall cause WV to deviate from their approved operating procedures.

C. Work with the host Rotary club/district and as appropriate regional and local government ministries to decide upon final Project sites.

No part of this project may be instituted for the benefit of private parties.

G. When possible, look for other ways to engage and involve the host Rotary club/district in ways that will advance the members knowledge of and ability to conduct future projects with greater sustainability and success. Assist and ensure all project locations and sites have proper signage highlighting the community involved, the local and international Rotary involvement and the local WV involvement.

8. Conflict of Interest

Strategic Asset Allocation

Over the long-term, the asset allocation policy will be the key determinant of the returns generated by the Fund and the associated volatility of returns. Based on the Fund’s objectives, circumstances, and spending policy, the Trustees have developed the following asset mix guidelines:

APPENDIX M

AMENDMENTS TO THE OPERATING RESERVE FUND POLICY STATEMENT
(Decision 119)

Article 24. Operating Reserve Fund Policy

24.010. Purpose
The purpose of the Operating Reserve Fund policy is to ensure the stability of the mission, programs, and ongoing operations of The Rotary Foundation by providing a source of funds to pay for the Foundation’s Operating Expenses in the event current year earnings from Funding Model sources is inadequate.

24.020. Definitions
The Operating Reserve Fund (“Reserve”) is defined as the designated fund set aside by action of the Board of Trustees.

Operating Expenses are the Foundation’s fund development and general administration expenses, excluding all PolioPlus activity.

Funding Model Earnings include Annual Fund investment earnings, Endowment Fund Spendable Earnings allocated to Operating Expenses, up to ten percent of contributions received from corporations, and other Earned Income transfers. The definition of Funding Model earnings will be updated to include any future sources of earnings approved by the Trustees as of the effective date of their inclusion.

The Earned Income balance is the accumulation of Funding Model Earnings less Operating Expenses.

World Fund Surplus is the amount, at the end of each fiscal year, above the sum of 50% of the current and prior two years’ worth of contributions to the Annual Fund SHARE, that were designated to the World Fund.

24.030. Goals
The minimum Reserve balance at the beginning of each fiscal year must be the budgeted Operating Expenses for that fiscal year.

The target Reserve balance at the beginning of each fiscal year is 2.5 times the current year budget for Operating Expenses.

The maximum Reserve balance at the beginning of each fiscal year is 3.0 times the current year budget for Operating Expenses.

24.040 Accounting for and Investment of Reserve
The Reserve will be recorded in the financial records as a Trustee-designated Operating Reserve Fund. The Reserve will be maintained in a separately managed investment account and invested in accordance with the investment policy statement for the Annual Fund.

24.050 Funding of Reserve
Annual Fund investments will be sold and reinvested in the Reserve investment portfolio when the Annual Fund’s Earned Income balance is positive at 30 June of any fiscal year, provided that the World Fund balance equals the sum of 50% of the current year and prior two years of contributions to the Annual Fund SHARE, that were designated to the World Fund. An amount of funds equal to the Earned Income balance will be transferred from the Annual Fund’s investment portfolio to the Reserve’s investment portfolio.

In the event the Reserve’s balance is below the minimum balance at the end of the fiscal year, an amount from the World Fund will be transferred to the Reserve sufficient to bring the Reserve balance to minimum.
World Fund Surpluses, net of the Earned Income balance, in excess of $5 million at the end of each fiscal year will be transferred to the Reserve investment portfolio until the Reserve reaches its maximum target. Once the maximum Reserve level is reached, World Fund Surpluses in excess of $5 million will be transferred to the Endowment Fund.

24.060 Use of Reserve

When current year Funding Model Earnings are insufficient to pay for Operating Expenses, an amount equal to total Operating Expenses charged to Earned Income which are not covered by Funding Model Earnings will be transferred from the Reserve to the Annual Fund, the difference between Operating Expenses charged to Earned Income and current year Funding Model Earnings will be transferred from the Reserve investment portfolio to the Annual Fund investment portfolio. This transfer will occur after any required World Fund transfers have been made in accordance with this policy.

If the Reserve is above its maximum balance at the end of a fiscal year, the funds in excess of the maximum balance will be transferred to the World Fund in an amount sufficient to bring the World Fund balance, net of any negative Earned Income balance, to $5 million plus the sum of 50% of current year contributions and contributions from the prior two years to the Annual Fund SHARE that were designated to the World Fund. If there are additional funds in excess of the maximum following the transfer to the World Fund, the remaining excess funds will be transferred to the Endowment Fund. Any other use of Reserve assets is not permitted.

24.070 Reporting and Monitoring

The Chief Financial Officer is responsible for assuring that the Reserve funds are maintained and used only as described in this Policy. The CFO will provide regular reports to the Finance Committee on the status of the Reserve, and will advise the Finance Committee of any use or funding of the Reserve.

24.080 Review of Policy

The Policy will be reviewed once every three years, at minimum, by the Finance Committee, or sooner if warranted by internal or external events or changes. Changes to the Policy will be recommended by the Finance Committee to the Board of Trustees.
